PROFESSIONAL SUMMARY

Results-driven Senior SQA Engineer with 5 years of progressive experience in software quality assurance for fintech, trading, and enterprise-grade web and mobile applications. Skilled in test strategy, manual and automation testing, API validation, performance testing, defect lifecycle management, and Agile release assurance. Proven record of authoring 3,900+ test cases, identifying 200+ critical issues, and contributing to a 25% improvement in application stability. Experienced in working directly with international clients and distributed teams across time zones, mentoring junior QA engineers, and owning release-readiness decisions end to end. Open to remote and hybrid roles.

CORE SKILLS

QA Leadership & Test Strategy | Manual Testing | Automation Testing | Selenium | API Testing | Postman | JMeter | Functional Testing | Regression Testing | Integration Testing | Requirement Analysis | Defect Lifecycle Management | Risk-Based Testing | Agile / Scrum | Release Readiness | Client Communication

TECHNICAL SKILLS

Automation & Testing: Selenium, Playwright, Postman, JMeter
Defect Tracking: Jira, ClickUp
Programming & Database: Java, Python, JavaScript, MySQL
IDEs: Eclipse, PyCharm, Visual Studio
Concepts: REST API, REST Assured concepts, SRS/BRD review, SDLC, STLC, mobile E2E (Android/iOS)

PROFESSIONAL EXPERIENCE

Senior SQA Engineer | Ontik Technology Ltd. | 2026 - Present

- Own QA for web and mobile applications, authoring 1,500+ test cases and ensuring release readiness, production stability, and coverage across Agile delivery cycles.
- Design scalable test strategies and risk-based QA processes; review SRS/BRD documents and clarify requirements with stakeholders.
- Manage the full defect lifecycle in Jira, from reporting through developer resolution, retesting, and closure verification.
- Mentor QA team members and drive structured defect prevention to reduce critical production issues.

SQA Engineer II | Streamstech Ltd. | Mar 2024 - Jan 2026

- Developed and executed 2,000+ test cases covering functional, regression, integration, API, and backend validation testing.
- Performed JMeter-based load testing to identify performance bottlenecks and improve system reliability under traffic.
- Collaborated with US-based client IQVIA and cross-functional teams in India, coordinating test cycles across multiple time zones.
- Mentored junior QA engineers, improved onboarding efficiency, and earned promotion to senior engineer for strong performance.

SQA Engineer | Next Ventures (FundedNext) | Jan 2023 - Feb 2024

- Built and maintained Selenium-based regression automation suites for fintech and trading platforms.
- Identified and reported 200+ critical production and pre-production issues across UI, API, and performance testing cycles.
- Contributed to approximately 25% improvement in application stability through continuous QA feedback and defect analysis.
- Led defect reporting in ClickUp and provided technical support to end users and the development team.

Junior SQA Engineer | Brain Craft Ltd. | Dec 2021 - Dec 2022

- Created 400+ functional and regression test cases and supported QA cycles for multiple client projects.
- Executed manual testing and JMeter-based performance testing to support timely, stable releases.
- Performed requirement analysis and retesting to verify fixes before each release.

EDUCATION

M.Sc. in Applied Statistics and Data Science, Jahangirnagar University, 2021 | CGPA: 3.23/4.00
B.Sc. in Computer Science & Engineering, BRAC University, 2019 | CGPA: 3.01/4.00

CERTIFICATION

Advanced Certificate for Management Professionals (ACMP 4.0), IBA, University of Dhaka, 2023
